

# JCB ENERGY ELECTRIC POWER INDUSTRY

MADRID / SPAIN

[www.jcbenergy.es](http://www.jcbenergy.es)

## FEATURES & ADVANTAGES

- JP Inverter silent variable frequency generator has been improved many times, and its weight and volume are in the same industry. To be in the forefront, the competitive advantage is obvious
- We always try to bring lighter when outdoor, from this point, we upgraded the core part of paralleling, now you don't have to spend more money to buy a parallel kit, just one simple cable for connecting with the second JP Inverter generator to double the power, Save space and save money

GENERATOR		
<b>Model</b>		JP 3300i
<b>Current</b>	A	13/25/30
<b>Rated Output</b>	KW	3,0
<b>Max. Output</b>	KW	3,3
<b>Rated Voltage</b>	V	230/120/100
<b>Frequency</b>	Hz	50/60
<b>Phase Number</b>		Single Phase
<b>DC Voltage</b>	V	12
<b>DC Current</b>	A	8.3
<b>Fuel Tank Capacity</b>	L	3,7
<b>Continuous time</b>	(%50 load)	4
<b>Net weight KG</b>		21,5
<b>Engine</b>		JC164P
<b>Displacement</b>	ml	145
<b>Pack Dimension</b>	mm	510/230/475
<b>Loading</b>	20GP/40GP/40HQ	308/644/805
