FEATURES & ADVANTAGES

- JP Inverter silent variable frequency generator has been improved many times, and its weight and volume are in the same industry. To be in the forefront, the competitive advantage is obvious
- We always try to bring lighter when outdoor, from this point, we upgraded the core part of paralleling, now you don't have to spend more money to buy a parallel kit, just one simple cable for connecting with the second JP Inverter generator to double the power, save space and save money

GENERATOR

Model		JPO 5500i
Current	A	21,7/20,8
